Policy Priorities

30 for 30 prioritized five policy priorities:

1) Prevention
2) HIV treatment and trials
3) Sexual and reproductive health rights and justice
4) Domestic violence and intimate partner violence
5) National HIV/AIDS Strategy (NHAS)
Ryan White Part D

• Part D programs, which provide primary and subspecialty medical care and support services to women, infants, children and youth (WICY) living with HIV and AIDS.

• President’s FY 2015 Budget proposes to consolidate Ryan White Part D into Ryan White Part C. This consolidation has the potential to radically transform services and restructure or destabilize existing comprehensive care models, created by Part D programs.
What can we do to protect our interest?

Commons Myths & Misperceptions

• If we receive government funding, we cannot lobby at all.
• If we receive foundation funding, we cannot lobby on public policy issues.
• We cannot lobby an incumbent candidate during an election season.
Basic Rule

• Section 501(c)(3) organizations may engage in educational activities related to the electoral process as long as they do not:
  • participate or intervene in any political campaign
  • in support of, or in opposition to, any candidate for public office
Two Forms of Lobbying

• **Direct Lobbying**

  • when an organization attempts to influence specific legislation by stating its position to a legislator or other government employee who participates in the formulation of legislation, through its staff or members.
Two Forms of Lobbying

- **Grassroots lobbying** (indirect lobbying)
  - When an organization urges the general public, including its members, to contact their elected officials to take action on specific legislation.

- **Key elements of grassroots lobbying:**
  - Refer to specific legislation;
  - Reflect or state a point of view on the legislation’s merits; **and**
  - Encourage the general public (or even your members) to contact legislators
How much can a 501(c)(3) spend on lobbying?

- **A generous amount:**
  - 20 % of the first $500,000 of annual expenditures;
  - 15 % of the next $500,000;
  - 10 % of the next $500,000;
  - 5 percent for every additional $500,000 up to $1 million.

**ABC nonprofit with expenditures of $50,000.**
- 20% of $50,000 = $10,000 = **Overall lobbying limit**
Grassroots Lobbying – Expenditures Limited

• Charitable nonprofits may spend 25% of their total allowable lobbying expenditures on grassroots lobbying.

• **ABC nonprofit with expenditures of $50,000.**
  • 20% of $50,000 = $10,000 = Overall lobbying limit
  • 25% of $10,000 = $2,500 = Grassroots lobbying limit
  • Total lobbying activity $2,500 on grassroots lobbying, and $7,500 on direct lobbying or all $10,000 on direct lobbying.
What is advocacy?

- Plead the cause on behalf of others / are persuasive
- Give information to legislators, elected officials, and decision-makers to support your viewpoints
- Identify problems that need to be addressed, contact legislators, and encourage them to guide the bill through the legislative process
Why should you advocate?

• Much of what happens depends on political decisions (Pillow-Price, 2009).

• You are the expert. You are knowledgeable. Most representatives do not have the knowledge you have about the issue you care about.

• It’s an opportunity to teach about the democratic process (Engle & Ochoa, 1988).

• “If you do not speak up and for the field itself, someone else will” (Pillow-Price, 2009, p. 18).

Step 2: Know how decisions are made and bills become law

- A bill is simply an idea that someone or a group of people would like to see become a law (Pillow-Price, 2009).
Step 3: Get acquainted with your representative

Do your homework **online** by reviewing their website
- http://www.senate.gov

Do your homework **in person** by meeting your representative to introduce yourself and build relationships
- The most effective approach to advocate is through building relationships (Pillow-Price, 2009).
- “The key to successful advocacy with each audience is to develop a relationship based on honesty, trust, and a command of the issues” (WSSDA, 2011, p. 3).
Step 4: Study the proposed issue

- Study websites, educational magazines, and journals
  - What has been tried before?
  - What are both sides of the issue?

- Talk to others
  - Who is affected by the issue or the solution?
  - Where do your colleagues stand?

- Develop your “elevator pitch”
  - Connect it to the representative’s life
  - Connect it to your life (Make your presentation personal)
Step 5: Decide your method for advocacy

- Email, fax, or letter
- Telephone call
- Social media
- In-person meeting
Email, fax, or letter

• Send original communications instead of mass-produced ones (Caldwell, 2003).

• Communicate in a variety of ways (Pillow-Price, 2009).
  • Phone the representative to learn the preferred method of communication

• Include these parts in your one-page letter
  • Your name, address, and telephone number
  • The issue that concerns you (Why and how it affects you?)
    • Refer to the bill number
  • The action that you want the representative to take

• Other ideas to remember
  • Keep it short, focused, positive, polite, business-like
  • Avoid educational jargon
  • Proof your letter and write well
  • Don’t go overboard with your passion and zeal
Telephone Calls

• Phone calls are an effective and fast way to communicate, especially when a critical vote is coming up (WSSDA, 2011, p. 23)

• Your previous nurtured relationship with your representative will pay dividends

• Include these parts in your phone conversation
  • Ask to speak to the representative
    • Probably will speak to receptionist or aide, who is tallying constituents’ votes for and against an issue
  • Your name, address, and telephone number
  • The issue that concerns you (Why and how it affects you?)
    • Refer to the bill number
  • The action that you want the representative to take
Social Media

- Most representatives have an active social media presence

- Social media is an effective way to reach a large group of people
  - Average citizens are more likely to visit Facebook or Twitter than a specific website devoted to an issue (CSAE, 2011).
  - Information from friends and family is more trustworthy than what is presented on the news (Wilford, 2012).
  - You can create a new group or join an existing one

- Follow similar rules to email and phone contact
  - Focus on the issue
  - Include information for follow-up
    - Social media encourages two-way communication (Briones et al, 2011).
    - Let others know how they can learn more.
  - Present a measured view; social media is often viewed as reactionary and emotional (Sayre et al, 2010).
In-person Meeting

• Visit with your representative
  • At the Capitol, home office, town hall meetings, community functions

• Schedule an appointment
  • Most meetings last 15 to 20 minutes

• Before the meeting
  • Dress professionally
  • Arrive on time
  • Greet the receptionist
  • Sign the guest book and include a short message about the issue
  • Ask to speak to the representative or the aide in charge of educational issues
  • Identify yourself as a constituent.
  • Let the staff person know that you are a voter in the legislator’s district
In-person Meeting (Cont.)

• **During the meeting**
  - Introduce yourself and exchange business cards
  - State the issue that concerns you (Why and how it affects you?)
    - Refer to the bill number
    - Be prepared to educate the representative
    - Speak from personal experience when possible
    - Prepare a one-page letter to guide your discussion. Give the letter to the representative or aide when you leave.
  - State the action that you want the representative to take. Ask for them to commit to support the bill.
  - Thank the representative or aide

• **After the meeting**
  - Follow up with a phone call, email, or letter thanking the representative for meeting with you
  - Offer another personal visit for more information
  - Address additional concerns or provide more information
Step 6: Join a group

- Reasons to join a group
  - Amplifies your voice
    - There’s power in numbers.
  - Keeps you informed via their websites
    - You will receive additional information about upcoming issues.
    - Many people are monitoring the proposed issues.
